

DermAmour

Urea

Urea and MSM are the only medically proven effective skin moisturizers in the world. Expensive skin creams from France and Italy contain Urea. These cosmetics often retail for \$100 or more per ounce. Cleopatra added Urea to her bath water to keep her skin beautiful.

MSM (methylsulfonylmethane)

MSM is a medically proven skin moisturizer. It is physiological sulfur. Sulfur is the third most common component of the human body and is critical for healthy skin; young, smooth, beautiful skin contains large amounts of MSM.

Aloe & Olive Oil

Aloe and Olive Oil have been used for centuries to care for the skin.

Our special blend of Urea, MSM, Aloe, Olive Oil Vitamin A, C, E, PABA, and an assortment of herbs and flowers, renowned for their benefits to the skin, provides you with the finest and most effective natural skin rejuvenator cream available – and at a reasonable cost.
