

**MSP Research Products Made With Silver 400-MSP Formulation:**

**Product: *Silver 400* Liquid, 400 PPM, 4 fl. oz. Amber Glass Bottle**

**Description:** *Silver 400* is a safe, non-toxic stabilized proprietary mild silver protein formula with superior antimicrobial properties for effective treatment of deep tissue harmful pathogens. *Silver 400* suspension offers favorable dosing regimen administration in treating viral, bacterial and fungi with no known cross-resistance or drug interaction. Designed to be fast acting with effective content delivery and cellular absorption.

**Content:** Made with pharmaceutical grade - mild silver protein at 400 PPM -17.6 nanometer-sized particles processed in an orthomolecular restructured water (three-type) base.

**Use:** Our Mild Silver Protein is known to inhibit the growth of nearly all pathogenic virus, bacteria and fungi, including some species that are resistant to antibiotics. Our silver formula represents a revolutionary form of stabilized colloidal silver atoms that kills virtually any germ with which it comes into contact, has no known side effects, and does not lead to the development of resistant organisms. There are no better anti-infective formulas on the market. Use as a dietary supplement. For Ag therapy protocols using IV drip infusions, oral and topical, reference Ag Protocol Manuel.

**Recommended Dosage:** As a dietary supplement, ¼ to ½ teaspoon daily or as directed by your physician.

**Packaging:** Available in retail and bulk quantity tamper-resistant packaging:

- Single piece- retail packaging.
- Bulk case lot- 12 piece- retail packaging.
- Bulk case lot- 12 piece- wholesale packaging.

**DISCLAIMER**

The uses and protocols noted herein have been reported by practicing physicians. We make NO claims that these products cure, mitigate, alleviate, or prevent any specific disease, affliction, or conditions, including those reported here.
